

Roman Holidays Tour

Rome has provided the backdrop for more films than almost any other city. William Wyler's *Roman Holiday*, with its unforgettable performances from Audrey Hepburn and Gregory Peck in the starring roles, has become an icon of liberated, carefree tourism in Rome. The tour takes you round the main locations, accompanied by a photobook showing scenes from the film so that you can position yourself exactly where the scenes were shot.

Be sure to have your picture taken on one of our vintage vespas and to dream, once you return home, about how you were the star in your own modern fable.
